

$$\vec{B} \in \{100\}$$

$$\bar{\eta} = \frac{1}{4} \times 0.3849 + \frac{1}{4} \times 0.6507$$

$$\vec{B} \in \{011\}$$

$$\bar{\eta} = \frac{1}{4} \times 0.3849 + \frac{1}{4} \times 0.8328$$

$$\bar{\eta}^{100} < \bar{\eta}^{011}$$

→ We should observe  $T_1^{100} > T_1^{011}$
